Smart Buildings

SHOW

18-19 October 2023 • ExCel London

A beam of light shines down from the top left corner of a dark, textured surface, creating a soft, ethereal glow. The light beam is the primary source of illumination, casting a gentle radiance across the dark, grainy background.

Why light?

Light enriches people's lives.

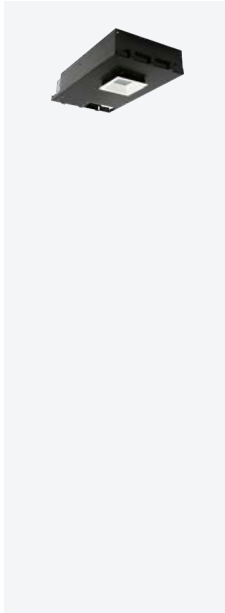

Sunlight brings rhythm to our lives.

How do we specify lighting today?

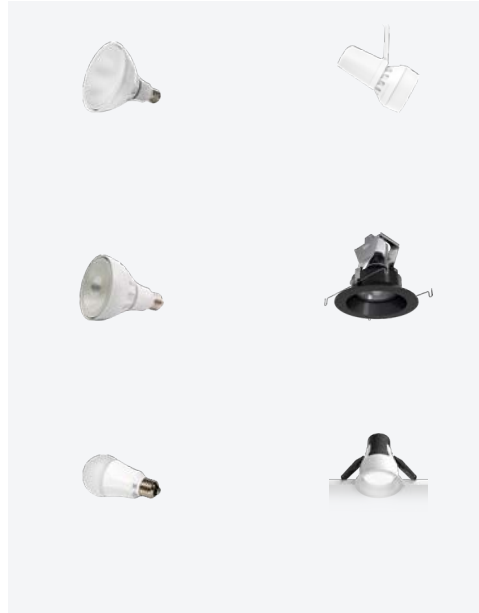

Downlights

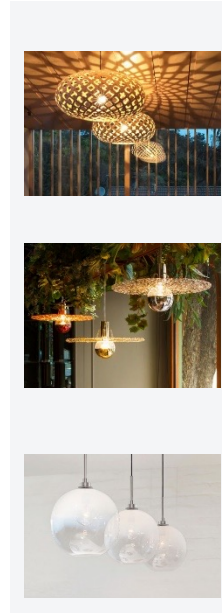

Linears

Lamps & Accessories

Decorative

Sunlight brings rhythm to our lives.

Wakes us

Energizes us

Calms us

The built environment transforms our relationship with light.

To improve upon it

Remembers the last

Each step forward

Light tells a
story
by engaging the
senses.

Light shapes
how we feel.

Light
accentuates
our lives.

Captivating Beauty

Reinvent how light in the home should feel.

The Elements

Lighting

Shades

Controls

Sync with Nature

Shades

Number 1 light source — sun
Manage day light
Balance privacy
Preserve views
Combined with artificial — perfect light

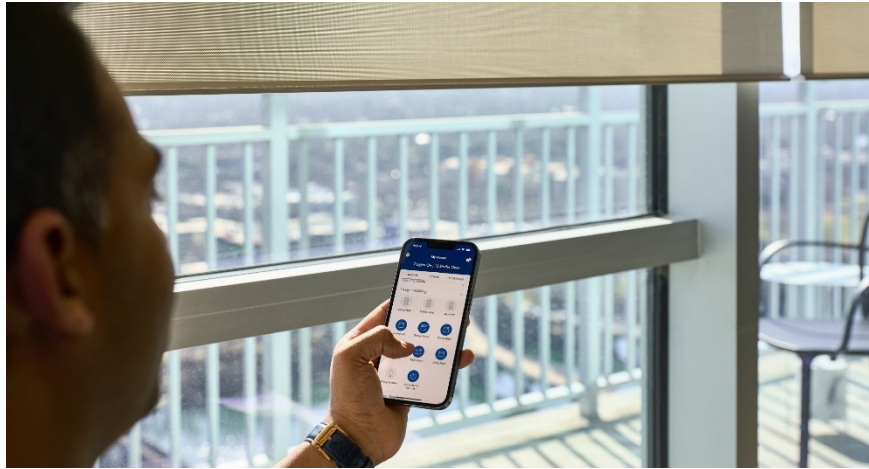

Shades Performance

Aligned

Quiet

Smart

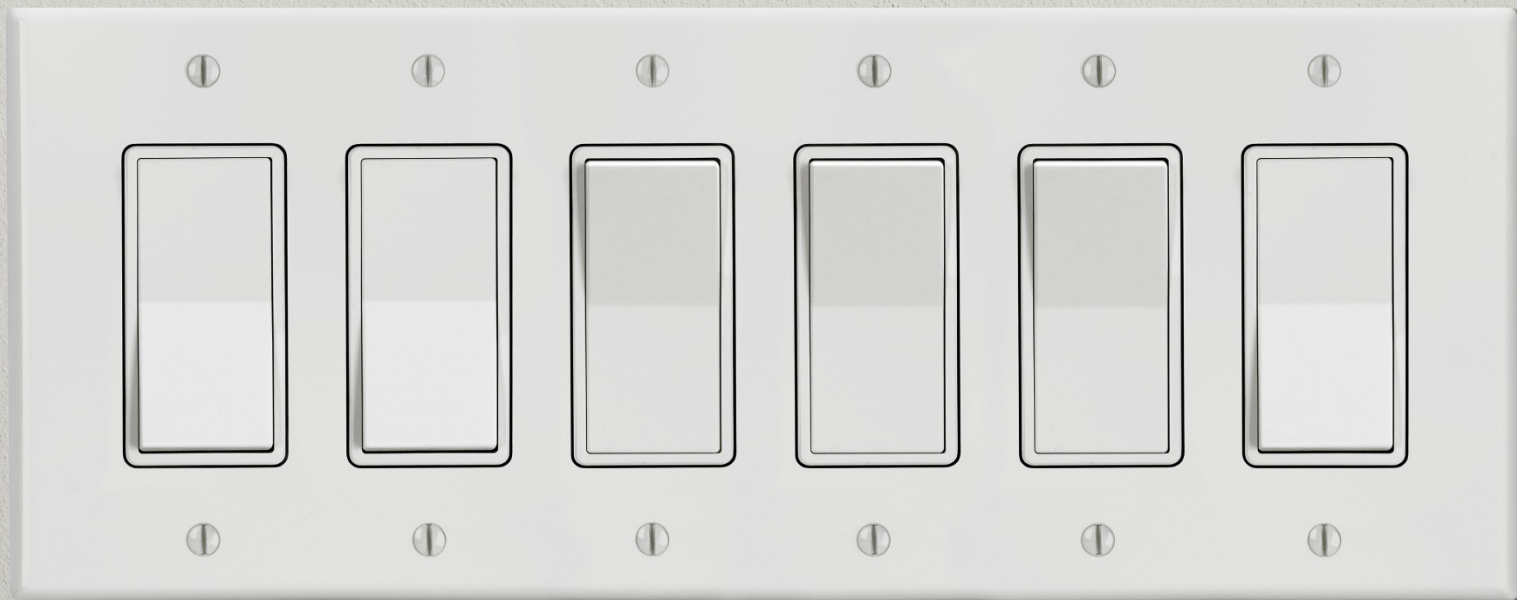

Designed to work dynamically throughout the day

Controls

Controls Experience

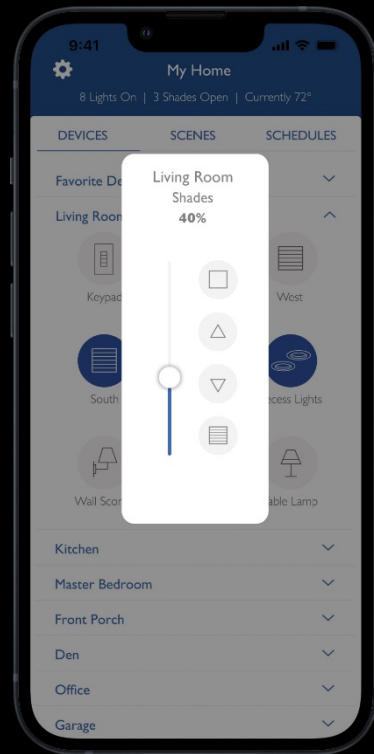

Controls Design

Intuitive Interactions

Stay connected with controls that feel natural,
responsive, and simple to use.

Thank you
